

Goldman Sachs (GS) — Q2 2026 Earnings Digest

Reported 2026-07-14. Prepared 2026-07-15. Source: Bigdata / FMP connector (structured actuals, statements, estimates), embedded in the dashboard. Rules-based analysis — not investment advice.

Headline

Metric	Reported	Consensus	Surprise
Diluted EPS	\$20.98	\$14.47	+45.0%
Net revenue	\$20.34B	\$16.22B	+25.4%
Net income	\$6.63B	—	—

What drove it

- EPS beat consensus by +45% and revenue by +25%.
- Diluted EPS +92% year-on-year.
- Buybacks cut the diluted share count -4.2% year-on-year.

Diluted EPS trend (last 8 quarters)

Quarter	24 Q3	24 Q4	25 Q1	25 Q2	25 Q3	25 Q4	26 Q1	26 Q2
EPS	8.40	11.95	14.12	10.95	12.25	14.00	17.55	20.98

Year-on-year, diluted EPS moved +91.6%.

The forward read

Consensus puts **Q3 2026 EPS at \$15.31** (reported quarter: \$20.98). In other words, the Street is **not** extrapolating this quarter — it models a step back down.

What to watch

- Consensus models Q3 2026 EPS back to \$15.31 — the Street treats this quarter as a spike, not a new baseline.
- Analyst consensus: Hold · target \$1,143.

Analyst stance

Consensus rating **Hold** (22 buy / 29 hold / 4 sell), consensus price target **\$1,142.67**.
